ZoneAlarm Extreme Security

Z **ZONEALARM**
By Check Point

Product description

ZoneAlarm Extreme Security is the most comprehensive multilayered security suite that stops the toughest viruses, spyware, ransomware, and hackers. ZoneAlarm's award-winning enterprise-grade solution includes its iconic and pioneering firewall, advanced anti-phishing technology, award-winning anti-ransomware, and protection against zero-day attacks. It's a multi-device package that enables the usage of each seat on either a PC or a mobile device (ZoneAlarm Mobile Security app).

Enterprise-Grade Security Technology

ZoneAlarm uses top-notch enterprise-level security technology, adapted for home users and small businesses

24/7 Online Support

Free customer support, including an in-depth knowledge base, forums, and 24/7 online help.

100% Virus-Free, Guaranteed!

ZoneAlarm Extreme Security guarantees 100% virus-free or we will give you a refund.

Product features

Antivirus & Anti-Spyware Engine

Detects and removes the most recent viruses, spyware, Trojan horses, worms, bots, and rootkits.

Anti-Phishing

Included in Web Secure Chrome Extension. Protects your private information from phishing attacks while you browse online. Scans URLs to prevent you from entering your personal information on websites that are known to carry security threats

Threat Emulation

Opens email attachments and web downloads in a virtual cloud environment to see if they're safe.

ZoneAlarm Mobile Security – Android

Protects your device from malware, malicious apps and unsafe networks. Keeps you safe from phishing attacks in real-time, across all apps: email, messaging, and social.

Anti-Keylogger

Prevents identity thieves from stealing your passwords and keystrokes.

Advanced Two-way Firewall

Making you invisible to hackers by monitoring programs for suspicious behavior; spotting and stopping new attacks that bypass traditional antivirus protection, and proactively protects against inbound and outbound attacks.

Anti-Ransomware

An award-winning solution that uses enterprise-grade technology to detect Ransomware attacks, block them and immediately restore any encrypted files.

ZoneAlarm Mobile Security – iOS

Warns you if your device is connected to unencrypted or unsecured WiFi networks. Blocks attempts to remotely seize control of your camera, mic, and more.

Threat Extraction

Included in Web Secure Chrome Extension. Removes potential threats from email attachments and web downloads.

Web Monitor

Web Monitor scans web site before they are accessed and web content before it is downloaded.

System Requirements

Microsoft® Windows® 7, 8, 8.1, 10 All versions

32-bit / 64-bit, 2 GB RAM
2 GHz or faster processor
1.5GB of available hard-disk space

Microsoft .NET framework
Version 3.5 or later

Note: If a supported Microsoft .NET Framework is not installed, it will be installed with ZoneAlarm

Web Secure Chrome Extension
Google Chrome (All versions)

ZoneAlarm Mobile Security App
Android 4.2 or newer
iOS 9.0 or newer.

ZoneAlarm is only compatible with MS Windows Defender, and is not compatible with any other anti-malware software.

To install ZoneAlarm, you must first uninstall other anti-malware software. Otherwise, you may experience OS stability and computer performance issues.
